><p>Hey guys, it's been a while, huh. Well, I decided I'd better get my butt in gear and edit this. I was told that you might like this better without all the fancy symbols, so for all you guys that didn't like it the first time, because of that, this chapter is for you. And as an added bonus, I even added a few different words for you guys! Enjoy! (P.S If it's not allowed to add chapters containing practically a copy just let me know and I'll fix it.)<p>
